SUMMARY

Final-year AI & Data Science student skilled in Python, SQL, Pandas, and Power BI, with internship experience at IRABOT. Passionate about solving real-world data problems and extracting actionable insights. Eager to contribute as a Data Science or ML Engineer Intern.

PROJECTS

Online Bookstore Database 5-9-2026 – 12-9-2026

<https://github.com/ibrahimkhan-data/online-bookstore-sql>

- A beginner-friendly SQL project for managing an online bookstore database.
- This project demonstrates database design and SQL concepts using an online bookstore scenario.

Customer Churn Prediction 17-9-2026 – 19-9-2026

<https://github.com/ibrahimkhan-data/Customer-Churn-Prediction>

- Predicted churn for ~7,000 telco customers with Logistic Regression (ROC-AUC ~0.84).
- Served real-time 0–100% risk scores and explainable +/- factors in a Streamlit app.
- Beat Random Forest (~0.83) and XGBoost (~0.82) while keeping the model fully interpretable.

Heart Disease EDA 20-9-2026 – 21-9-2026

<https://github.com/ibrahimkhan-data/Heart-Disease-EDA>

- EDA on 303 UCI heart disease records with pandas and seaborn.
- Compared clinical features to disease status and mapped correlations.

EDUCATION

B.Tech, AI & Data Science 2024 – 2027

Datta Meghe College of Engineering · Grade: 8.4

Diploma, Automation & Robotics 2021 – 2024

Abdul Razzak Kalsekar Polytechnic · Grade: 86.91%

SSC 2008 – 2021

Angel's Paradise English School · Grade: 64.00%

SKILLS

Python, SQL, pandas, NumPy, Matplotlib, PowerBI, scikit-learn

CERTIFICATIONS

- Agentic AI Certified Foundations Associate · Oracle · August 29, 2026
- Python Basics · Unstop · August 03, 2026
- AWS Academy Graduate - Cloud Foundations - Training Badge · AWS Academy · March 21, 2026

LANGUAGES

English (Fluent), Hindi (Fluent), Urdu (Native)
